

## **Neziwe 27 May 2014**

Neziwe (her child is 5 yrs old and has been here since 2012), started at Klippie Kids as a teacher at the beginning of this term.

Kwakhanya her child, started at 2012 June. When she started she was a child who liked to write and showed her mom to pick up the chair and not slide it out. The other thing is that she showed her mom that she wanted to wash the dishes and make her own bread and when Neziwe came to be a teacher she realised that her child learned this at school. She also showed her mom how to slowly close the door not to make a noise.

Kwakhanya likes to pray and wanted to pray with her mom and she knows our Father's prayer and wants to pray at home. Sometimes her child would like to be a teacher; she likes to show the kids how to do things correctly and teach other children.

She changed in that she became less shy after coming to school. She told her mom that she needs to bring an apple to school because she learns to peel an apple and wants to bring an orange to juice the orange.

She learnt how to interact with other kids in a better way. Neziwe noticed how her child who was excessively shy changed, now talking and playing and running around and just wants to play and learn more and more.
